Double your ticket capacity with **NEW** expandable columns!

Nevada Gold II is the only ticket dispenser that can expand to hold up to 8,000 pull tab tickets!

Easily add 4 additional ticket columns to your existing 4-column Nevada Gold® II, increasing the capacity to 8,000 tickets!

- › Eliminates the need to purchase an entirely new machine
- › 4-column expansion can easily be assembled on location

Combining the reliability of the original Nevada Gold Classic...

Durable Construction

The heavy-duty steel construction of the Nevada Gold II ticket dispenser is designed, engineered, and manufactured to the most exacting standards.

Gear & Roller System

Nevada Gold's renowned dispensing mechanism uses a belt-free gear and roller system that increases vending reliability and provides greater accuracy.

Modular Ticket Columns

Each individual front-loading ticket column can be easily removed and/or replaced (*now in just a few seconds!*) without affecting the operation of other columns.

...with brand new game-changing features and improvements!

Enhanced LED Lighting

Bright white interior cabinet lighting with optional colour-changing main door lighting.

Improved Backup Battery

The Nevada Gold II can dispense tickets for up to one hour after power loss.

Built-in Lifting Handles

Handles are integrated into each side of the cabinet for balanced weight distribution.

Formatted Reporting

Financial and event reports provide session summaries in a unified print format.

Extensive Event Logging

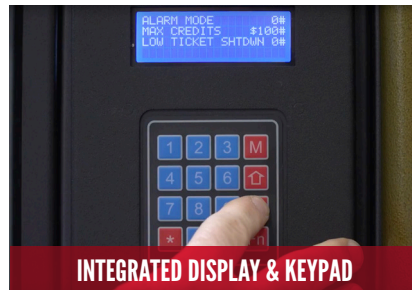

1,500 time-stamped events, including door open/close, dispense results, alarm, etc.

Adjustable Credit Limits

Operators can define the maximum credit limit that can be played, up to \$200.

The lightning-fast Nevada Gold II dispenses up to 14 tickets per second! Speed isn't the only impressive factor; it's also the most accurate, secure and reliable dispenser on the market.

A new, larger LCD display offers improved messaging; a new 16-key keypad¹ adds integrated menu-driven navigation and provides local PIN sales capabilities.

¹Optional protective keypad cover is included

A single ticket column can quickly and easily be removed and/or replaced in just a few seconds by using the convenient quick-release lever located underneath each column.

Nevada Gold ticket dispensers (and/or certain options & features) are not legal in all jurisdictions. Please contact your authorized sales representative for more info on how Nevada Gold ticket dispensers can be customized to meet the needs of your specific market(s).

THE INDUSTRY'S MOST RELIABLE TICKET DISPENSER!
